

Dear Resead,

*the satisfaction for the success of our surgical
“marathon” is great but we are conscious of the merit of
many important figures of national and international
gynaecology, who wanted to honour us with their
excellent participation.*

*We believe your presence has been significant, so we
want you to know we are grateful to you for the time
you devoted to us.*

*We hope this extraordinarily exciting experience
contributed to strengthen our friendship.*

See you in 2012.

Carmine, Annamaria e Mario Malzoni
